

Bitaxe Gamma 601

Ultimate Efficiency and Power: The Bitaxe 601 Gamma

The **Bitaxe 601 Gamma** delivers a groundbreaking **1.2 TH/s hash rate** at default settings while consuming just **15 watts of power**, making it one of the most efficient and powerful Bitcoin mining devices available.

Effortless Setup for Anyone

Equipped with **built-in Wi-Fi** and an included **step-by-step video guide**, the Bitaxe 601 Gamma offers a cable-free, browser-based setup for quick and seamless operation, even for beginners.

Bitaxe Gamma PRO

The Ultimate Upgrade: Bitaxe Gamma Pro

Take your Bitcoin mining to the next level with the **Bitaxe Gamma Pro**—designed for those who demand peak performance and efficiency. With cutting-edge upgrades, this is the miner of choice for serious enthusiasts and professionals.

Enhanced Cooling and Silence with Noctua Fan

The **Bitaxe Gamma Pro** features a premium **Noctua fan**, providing superior cooling performance while operating at ultra-quiet noise levels. Say goodbye to loud setups and overheating concerns—this fan ensures optimal performance even during extended mining sessions.

Upgraded Heatsink for Maximum Efficiency

Equipped with an advanced heatsink, the **Bitaxe Gamma Pro** offers enhanced thermal management. This upgrade ensures your miner stays cool and efficient, even when operating at maximum capacity.

Impressive Efficiency and Hash Power

Delivering the same powerful **1.2 TH/s hash rate** at lower power consumption, the **Bitaxe Gamma Pro** maintains the outstanding efficiency of the original Gamma while adding premium upgrades for reliability and comfort.

Effortless Setup and Control

With **built-in Wi-Fi** and an included **step-by-step video guide**, setting up the **Gamma Pro** is simple and straightforward. Use the intuitive browser interface for a hassle-free, cable-free start-up.

Open-Source Innovation

Powered by the community-driven **AXE OS**, the Gamma Pro offers full customization and control over your mining experience, enabling you to fine-tune your setup to perfection.

Power Supply Included

Ships with a **5v/5A – 25W – 50/60Hz power supply**, so you're ready to start mining immediately.
